CECW-CO

MEMORANDUM FOR COMMANDER, SOUTH ATLANTIC DIVISION (CESAD-DE),
60 FORSYTH STREET, SW, ROOM 10M15, ATLANTA, GA 30303-3490

SUBJECT: REVISED Implementation Guidance for Section 1050(a) of the Water
Resources Reform and Development Act of 2014 (WRRDA 2014) – Namings

1. This implementation guidance supersedes the previous implementation guidance for this provision dated August 18, 2014.
2. Section 1050 (a) of the Water Resources Reform and Development Act of 2014, Public Law 113-121, provides a sense of Congress that at an appropriate time and in accordance with the rules of the Senate and the House of Representatives, the lock and dam located at mile 357.5 on the Tennessee-Tombigbee Waterway should be known and designated as the "Donald G. Waldon Lock and Dam" (copy enclosed).
3. Rule 7(d) of the Rules of the Senate Committee on Environment and Public Works states that the Committee may not name a building, structure or facility for any living person, except former Presidents or former Vice Presidents of the United States, former Members of Congress over 70 years of age, former Justices of the United States Supreme Court over 70 years of age, or Federal judges who are fully retired and over 75 years of age." Currently, naming the lock and dam for Mr. Waldon does not meet the criteria established by the Senate Rules. At such time that the criteria are met, the name change can be initiated.
3. At that time, any reference in a law, map, regulation, document, paper, or other record of the United States to the lock and dam at mile 357.5 shall be deemed to be a reference to the "Donald G. Waldon Lock and Dam" and as appropriate and practicable, any physical references shall be changed to "Donald G. Waldon Lock and Dam", along with all project references in USACE databases and budgetary information. Project funds and the normal budgetary process will be used for this activity. Costs for the renamings should be budgeted as a separate line item and tracked separately.

SUBJECT: Implementation Guidance for Section 1050(a) of the Water Resources Reform and Development Act of 2014 (WRRDA 2014) – Namings

SEC. 1050. NAMINGS.

(a) Donald G. Waldon Lock and Dam.—It is the sense of Congress that, at an appropriate time and in accordance with the rules of the Senate and the House of Representatives, to recognize the contributions of Donald G. Waldon, whose selfless determination and tireless work, while serving as administrator of the Tennessee-Tombigbee Waterway for 21 years, contributed greatly to the realization and success of the Tennessee-Tombigbee Waterway Development Compact, that the lock and dam located at mile 357.5 on the Tennessee-Tombigbee Waterway should be known and designated as the “Donald G. Waldon Lock and Dam”.
